## Leisure Facilities

The following scale of charges is proposed for participation in Recreation Activity Programs conducted by Council's Leisure Facilities. A degree of flexibility is required so that fees can change if costs change, to allow specials to be offered, and to enable a schedule to be applied to any new activities introduced during the year. Fee charged is dependent on activity cost.

## Waste Reduction - Scale of Charges

The following scale of charges is proposed to enable flexibility in dealing with non-standard waste types, services and / or quantities as may arise during the year. A degree of flexibility is required so that fees can change if costs change, to allow for large quantities, and to enable a schedule to be applied to any new activities introduced during the year. Fee charged is dependent on activity cost and unit of measure.
