

Whether you are starting out in your career or making changes to your business, having a mentor to lead you in the right direction is invaluable.

At the City of Canning, we recognise that not everyone has access to mentoring opportunities. We have designed a Business Mentoring Program that encourages everyone from start-up entrepreneurs right through to seasoned business owners and operators to take a leap outside of their comfort zone in a supportive and enabling environment. The program sponsors participants in a range of mentoring programs offered by our partners Just Start IT, AIM WA, Curtin Ignition, Plus8 Sprint and SME Surge.

Are you a...
