

CITY OF
CANNING

Little Green Steps WA & Australian Association for Environmental Education (WA Chapter)

presents:

Biodiversity Awareness and Actions in Early Years Settings

Thursday 23 September 2021,
5.30PM – 8.00PM

Canning River Eco Education Centre (CREEC)
Cnr Kent Street & Queens Park Road, WILSON WA

Early Years Educators passionate about nature play awareness, come and celebrate national Biodiversity month with a whole suite of new ideas.

Birds, Bees, Bugs, All Livings things learn how to embed biodiversity awareness into the day to day of your education and care setting. This gives children agency to make a difference by protecting and conserving biologically diverse environments.

We will cover:

- Fun, hand-on activities for children (and educators!) to take action for Biodiversity.
- Introduce Citizen Science projects to take whole centre action.
- Links to the National Quality Standard and the Early Years Learning Framework.
- Opportunities to network with other early childhood professionals.

"Thank you for getting me motivated!"

'Like switching on a lightbulb of sustainability ideas'

This workshop is **SUBSIDISED** for services within the City of Canning.

A fee of \$20 applies to non City services.
