I am a Ratepayer just like you who wants to represent other Ratepayers!

I believe the current Council is out of touch with the Community and we need to get back to basics. Council should be reducing expenditure on City-centric projects and spend more money on Suburban improvements. More effort is needed to deliver practical and efficient services back to Residential areas.

I am independent and I don't have any political aspirations. I have a good understanding of current issues and have attended many Council Meetings over the years.

One of the most important issues I'm passionate about is ensuring that the Canning Arts Group Site is NOT sold for any future development. It is in a prime location, already owned by Council and I believe it would be an ideal place for a Local Arts Precinct for all to enjoy.

I actually live in the Bannister ward and I will do my very best to represent you in Riverton, Rossmoyne and Shelley.
