With over 20 years spent in the finance, medical and pharmaceutical industry I believe I am highly qualified to assist us, the ratepayers in receiving a rewarding outcome for the Canning Council.

Throughout my career, I have been passionate about compliance and ensuring plans and policies are implemented correctly. This level of aptitude assisted me well upon reaching the position as a CEO leading a team of over 120 people in 3 countries.

The level of skills and values I have acquired will improve the Council's capabilities on how we can diversify the revenue sources of the City to relieve the financial burden from our ratepayers.

Having 3 high school aged children in the local area I am also passionate about how we can improve the City, for the benefit of future generations.

By voting for me you will have a fully engaged and approachable Councillor who has the time and skill set to effectively improve our local community now, and well into the future.

Please VOTE 1 - Richard BOND
