I am a Ferndale resident and dedicated Physiotherapist. I am committed to enhancing the well-being of our community. My focus lies in preserving our parks and recreation facilities, prioritising the health of our residents. I am dedicated to creating a thriving, inclusive, and secure future for Canning.

I aim to safeguard our city from potential flooding risks by maintaining and improving our waterways and drainage systems. 3,310 Canning properties are at high risk from riverine flooding by 2030, as modelled by independent climate risk analysis company Climate Valuation.

I am a firm believer in the strength of diversity, I consider it a vital asset for Canning. Drawing from my previous working experiences, I possess excellent communication, leadership, and teamwork skills. These abilities will aid me in addressing community challenges, elevating the socioeconomic status of residents, and combating anti-social behaviour and crime.
