I have lived in the City of Canning (Beeloo Ward) for many years and enjoy the outdoors and natural beauty of the area, particularly as I'm an avid cyclist and kayaker. I want to see the natural environment and infrastructure enhanced for residents and visitors to enjoy.

As a father of young children, having modern parks and spaces activated for families is something I want to see given focus.

I'm active in commerce and have a skills in managing costs and delivering value. These are abilities I will use to help the City reduce it's debt while ensuring the upkeep and enhancement of infrastructure and assets of the City, without excessive rate rises. I have a working knowledge of the administration of a Local Council and want to see the City improve as an organisation for the benefit of the ratepayer.

I have served as a volunteer as a chaplain, referee, and in the Army reserves, and I am now seeking the opportunity to serve as a Councillor for the City of Canning.
