

Candidate Details

Ballot paper name	NG, Paul
Candidate name	Keh Leng NG
District	City of Canning
Nominating for	Mayor for City of Canning
Election type	Ordinary
Enrolment status	NG, Paul is eligible to stand for election as a resident of the City of Canning.

Canning's **financial health index** in 2019 was 78, now it is below 64.

In 2019 complaints were few and far between. Now there are **20+ complaints on city's governance**, costing a lot of money and reputation.

We used to be one of the safest places in Perth. Now **crime is everywhere**.

In 2019 as Mayor, I used a superseded car, **gave back \$100,000 of my allowance** to Council, respected all residents, their views & political leanings. Today you pay for **expensive cars and lavish Council dinners at every meeting**.

My 2015-19 term was focused on **cleaning up the mess left behind from a sacked Council**. Today that **experience is required again**. After four wasteful years, our city is more than **20 million dollars in debt**. Basic services are suffering. **Crime has increased despite spending 4.3 million**.

This is why **I am nominating for Mayor again**. I want to bring the city back to the right trajectory. I will put **an end to rate hikes, excessive allowances & poor service delivery**.

Want good governance? Vote 1 Paul Ng.

Paul Ng's

Interest rates have risen, inflation has increased and the cost of everything has gone up. This has placed great pressure on families in Canning. Because of this, Paul Ng, our former Mayor, has decided to run again. In these changing and difficult times, **we need a committed and experienced hand at the wheel.** We need a mayor who is committed to serve the residents of Canning, regardless of their political affiliation. One who takes seriously the need to meet budget and not waste ratepayers' funds.

When Paul left the Mayoral role in 2019, the **City's Financial Health Index was 78. Today, just after 4 years, the Financial Health Index is well below 64**

Paul's record:

1. **\$100,000 of Mayoral allowances were given back to council.**
2. Never needed a fulltime PA
3. **Used a superseded model car which cost only \$33K.** Never used the car to travel out of metro
4. Never fight for \$4500 clothing allowance.
5. Never asked the council to pay for his wife's official dinner.
6. Very few complaints were received by the Local Government Authority. **Today more than 20 complaints.**

If Re-Elected:

Paul will not take any Sitting Fee for the financial year.

Mayoral car will not be more than \$40k

Will STOP lavish sit-down dinner at every meeting

Will not shamefully used the council, to promote oneself for future State or Federal politics.

Will review the community Safety budget of \$4.3 Mil pa, yet crime still increases rapidly.

Canning should stay on course to basic and leave building of infrastructure to State and Federal.

Cost of External legal, environmental and all feasibilities studies or consultancies be made public.

Will NOT support Paid Parking.

Will published all the uneconomic council ventures.

Stop the bleeding of ratepayer funds.

Green Waste to be collected in a reasonable timeframe, otherwise to reduce rates for the ratepayer for each day it is late.

In the event of flooding, ensure that ratepayers are compensated if council has failed to provide adequate maintenance of drains.
