SINGH, Hardeep

Thank you for taking time to read my profile and to vote. I have served in the Australian Army reserves and got a master's degree in engineering from UWA. Being a young member of our Canning community, I can bring energy, passion and courage to our council to get the job done and done well. I will be your strong voice to bring the following key concerns to our Council meetings - 1) Improving security by getting more CCTV cameras implemented, increased ranger patrolling and improved lightning on our streets. 2) Better and effective facilities in our parks and playgrounds. 3) More trees for a greener Canning and to help our environment 4) No increase in our rates until 2022 (this is possible by increasing productivity).

Vote for me and I promise to represent our community with integrity and utmost honesty.
