

Application to Construct Crossover

This Application to Construct Crossover form must be submitted to the City a minimum of 10 business days prior to the scheduled commencement of works. No works shall commence until this application has been approved by the City.

Crossovers are to be constructed to the City’s Crossover Specifications which can be accessed via the City’s website at www.canning.wa.gov.au. Should there be any deviation from the specifications, the reason for the deviation must be explained in writing and lodged with this application. Please be advised that such deviation from the specifications may not be approved by the City or may delay the processing of your application.

A one-off Application Fee in accordance with the City’s Schedule of Fees and Charges applies to each application. This fee covers the cost of processing the application and two inspections by the City. The inspections will be conducted initially at the time of processing the application and again after you have advised the City that works have been completed. The City will advise you of the amount and the due date of the fee.

It is the City’s preference that this application, including the site plan and any supporting documentation, be lodged electronically to PlanningComms@canning.wa.gov.au and marked for the attention of Statutory Planning in the subject title.

APPLICANT DETAILS		
Name:		
Company (if applicable):		
Postal Address:		Post Code:
Telephone:	Mobile:	Email:
Signature:		Date: / / 20

CROSSOVER LOCATION DETAILS

House No: _____ Lot No: _____

Street Name: _____ Suburb: _____

Please tick the box below that describes the proposed works.

New first crossover Upgrade Existing Crossover

A site plan that includes the proposed crossover must be lodged with this form for your application to be accepted. The plan forms part of this application. The plan must be drawn to scale (1:100 or 1:200) and include details such as location of street trees, power poles, existing carports and existing verge infrastructure such as, but not limited to, side entry gullies and manholes.

If the crossover forms part of a new development, please provide the Application Reference Number (if available) in order to expedite the approval process: _____
